IRRIGATION DAM HEING CONSTRUCTED

A dam is being constructed in Tarian Commune (Bihor Judet) on the Crisul Repede River in order to increase the volume of water in the Tarian-Cefa canal, which is used to supply water for irrigating rice fields. The new dam will insure a flow of a cubic meters of water per second, as against the former 2.5 cubic meters, and will irrigate adequately 1,000 jugers planted in rice.

The Provisional Cormittee of Bihor Judet has engaged carts and wagons for hauling sand, gravel, cement, and other construction material: to repair roads and to build schools, city halls, and social rooms in the judet.
